Do you have a question?
Here's how to reach a midwife...

EMAIL If you have a non-urgent question you may email
Midwife@WaterBirthBaby.com

PHONE Our office is staffed 9 – 5, Monday – Friday, although the midwife is not necessarily in the office during these hours. If you have a concern or question, you may call during office hours and leave a message for the midwife.

Calls will be returned by the end of the day, in order of priority of the problem. Please be prepared to give details of your question or problem, so that the midwife can appropriately return your call based on the urgency and complexity.

You may also leave a message on the answering system after office hours and your call will be returned on the next business day.

PAGER **239-279-8488** Keep this number with you at all times.

1. You may page the midwife directly if you need an immediate response or you think you are in labor. Pages are answered within 10 minutes.
2. Dial the pager number from a touch tone phone. You will hear a series of beeps. Enter the number you would like the midwife to call. Then press # and hang up.
3. Please allow 10 minutes for a return phone call. If there is no response, try your page again and wait 5 minutes. Be sure to check that you entered the number correctly and pressed #.
4. If you are not receiving a call from the midwife using the main pager number, you may call (239) 222-1044.
